

ADR Vehicle Equipment and Documentation Checks – TANKS

Tank Inspection Plates:

Must be marked with date of last periodic inspection & the mark of the body that carried out the tests, as appropriate:

- Leakproofness / intermediate (every 3 years)
- Thorough/periodic (every 6 years)

Vehicle Marking:

ADR hazard placards & orange plates must be

- In good condition
- Kept clean at all times

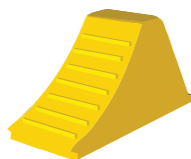

Documents that must be carried on the vehicle:

- Transport document
- Instructions in writing
- Vehicle Certificate of approval (eg. tractor units, fixed tank vehicles, semi trailers)

Vehicle Safety Equipment:

- Fire extinguisher (Vehicles over 7.5 tonne: minimum 12 kg total capacity with at least one extinguisher of 6kg - eg. dry powder)
- Wheel chocks (sufficient in number and suitable for GVW)
- 2 x warning signs
- Eye wash (at least 2 x 500ml bottles of sterile eyewash)
- First aid kit

Driver PPE:

- High-vis vest or full sleeve jacket
- Torch (intrinsically safe for petrol & highly flammable liquids)
- Protective gloves (suitably hardwearing & compatible with goods carried)
- Protective goggles

Additional safety equipment that may be required:

- for danger labels 2.3 and 6.1
- Emergency escape mask
- for danger labels 3, 4.1, 4.3, 8 and 9.
- Shovel
- Drain seal
- Plastic container (or suitable spill kit)

Driver Documentation:

- ADR Driver training certificate
- Photo I.D. (Valid Driver licence or Passport)
